DUAL XGPS170 GPS + ADS-B RECEIVER NOW WORKS WITH FLIGHT GUIDE iEFB

HEATHROW, FL (April 9, 2013) – [Dual Electronics](#) is pleased to announce that [Airguide Publications, Inc.](#) has chosen to support the Dual [XGPS170 GPS + ADS-B Receiver](#) in their iPad application: the Flight Guide iEFB. The in-flight weather and traffic information received through the XGPS170 now seamlessly integrates into the Flight Guide iEFB app, providing all the benefits of the ADS-B broadcast in an easy-to-use solution.

“As an industry leader in portable GPS/ADS-B units for general aviation, we felt it was important to integrate Flight Guide iEFB with the Dual XGPS170, to give our users a quality hardware option”, said Larry Garcia, owner, Airguide Publications, Inc.

With *Flight Guide iEFB* and the Dual XGPS170 ADS-B Receiver, pilots can see live color coded weather & data such as: NEXRAD, AIRMETs, SIGMETs, TFRs and Winds Aloft as an overlay on any VFR or IFR chart, providing increased situational awareness and flight safety. For more information visit www.FlightGuide.com.

“We are happy to welcome Airguide Publications to the list of software companies supporting the XGPS170 ADS-B receiver,” said Greg Lukins, Vice President, Business Development, Dual Electronics. “Airguide's strong heritage of providing dependable and timely data to pilots continues with their addition of in-flight ADS-B weather data into Flight Guide iEFB. We're very pleased that Airguide has chosen to support our ADS-B receiver, because it means the XGPS170 delivers a level of quality which the Airguide customer has come to expect,” added Lukins.

The XGPS170 GPS + ADS-B Weather & Traffic Receiver for Apple and Android devices features a high-accuracy WAAS GPS and an ADS-B receiver for weather and traffic data. The receiver connects wirelessly via Bluetooth to two tablets simultaneously, leaving both tablets free to connect to other WiFi devices. The built-in rechargeable battery lasts up to 5 hours of continuous use, and a 12-28V charger is included. The XGPS170 comes with a convenient non-slip pad that holds the receiver in place on horizontal as well as vertical surfaces. For more information on the product and compatible apps visit gps.dualav.com.
